LEDNER
optoelectronic

A collection of LED lighting fixtures, including track lights and a pendant light, displayed against a dark background.

LOUPI LIGHTING

A modern retail store interior featuring a black metal track lighting system mounted on the ceiling. Various handbags are displayed on shelves and hanging from the ceiling.

ONE A

A series of recessed ceiling lights in a white ceiling, arranged in a line. The lights are cylindrical with a dark outer ring and a warm-toned inner lens.

PROMOTECH

A curved, illuminated light fixture in a modern interior setting. The fixture is white and emits a warm, yellow glow. It is positioned above a white curved surface, possibly a desk or counter.

SORAA

A retail store interior featuring perforated metal shelving units and track lighting. The store is well-lit, and various items are displayed on the shelves.

timberlab

A close-up of a wooden post with a warm-toned light fixture attached to it. The background shows a field of yellow daffodils and trees, suggesting an outdoor setting.

VANIIIA

A track lighting fixture with several adjustable spotlights mounted on a white ceiling. The lights are illuminated, casting a warm glow.

Viabizzuno

A string of warm-toned outdoor lights hanging from trees in a garden or courtyard. The lights are small and round, creating a cozy atmosphere.

ACADEMY DEVELOPED BY VANILLA

ACADEMY ART PICTURE
LIGHT

MINIATURE ACADEMY ART
PICTURE LIGHT

The Academy Lights flexibility and light efficiency allows it to overcome most of the limitations of conventional picture lights. Low energy, durable and replaceable LED lamps are employed to deliver optimal color rendering and specially designed. This is achieved through a unique combination of lensed LED heads, which can be: selectively positioned across the picture span, interchangeable between several beam profiles, variably angled against the face of the picture. These features give unprecedented control over the distribution and uniformity of the light, which can be tailored to suit any piece of Art or whatever shape or size. Our lights can also be transferred between paintings of different dimensions; simple re-configuration and re-alignment of the light heads makes them re-usable time and time again. Whatever is required will be calculated by us and delivered to you, ready for installation.

ATELIER SEDAP

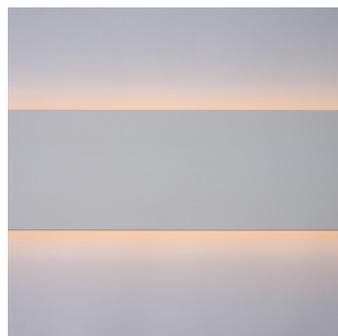

Micro-Corniche 187

Micro Blade Circle 769

Micro Blade 772

T-Blade 7011

The Atelier Sedap workshop has been involved in the most majestic projects for many years. By adapting to the fashions of each era, Atelier Sedap has developed products to suit any application.

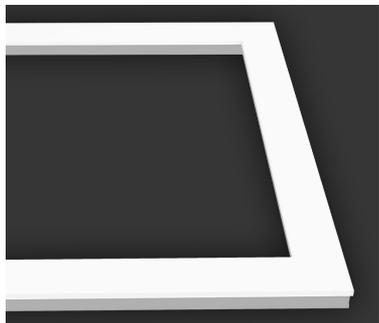

BACKLIGHT

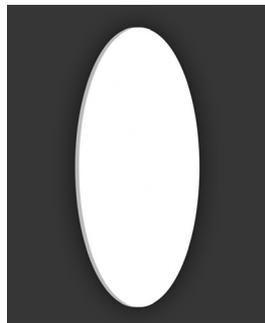

MAGIC CLOUD

FLUSH

HALO

HIDE

Backlight, invented and produced by the company with the same name in Italy, is an innovative material, created to light space, an extraordinary solution able to adapt to any architecture.

B-LIGHT

TONDO

FIREFLY

DOT 45

ATRIA 60 WW

B-LIGHT is a young and dynamic company based in Villotta di Chions (Pordenone), situated in the North East of Italy; we design and manufacture LED technology luminaires. Evolving from a thirty year experience in the electronics field designing and manufacturing circuitry and components for a variety of sophisticated industries, B-Light fully recognizes and understands the concept of a LED "electronic light". B-LIGHT designs a product around the LED source, rather than incorporate the LED into an existing luminaire. Fittings are compact, efficient and pleasing to the eye and mould their shape according to the architects, lighting designer and project consultants aims.

BPM LIGHTING

ACOUSTIC ALBA MINI
PENDANT

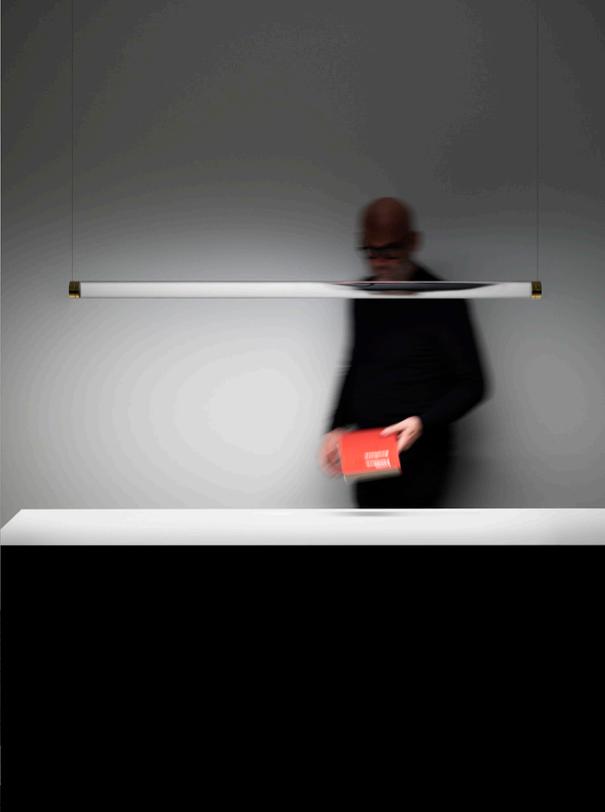

ACOUSTIC ALABAMA
PENDANT

At BPM Lighting they have taken inspirational lighting as a requisite for making architectural lighting with the best qualities and design.

After 56 years of experience, they have managed to develop the best production systems by combining the most cutting-edge technology with artisanal processes. BPM Lighting also has a strong presence in acoustics and acoustic lighting that both look fantastic in any space and perform to the highest of standards.

DAVIDE GROPPI

ENDLESS

MOON F

MAGIA

INFINITO

Davide Groppi creations come about through the need to give life to something necessary or significant. The things that inspire these ideas are works of art, ready-made-objects, magic, the desire to hand-make things, or simply the urge to play and have fun with light.

SPOT D15 RCA

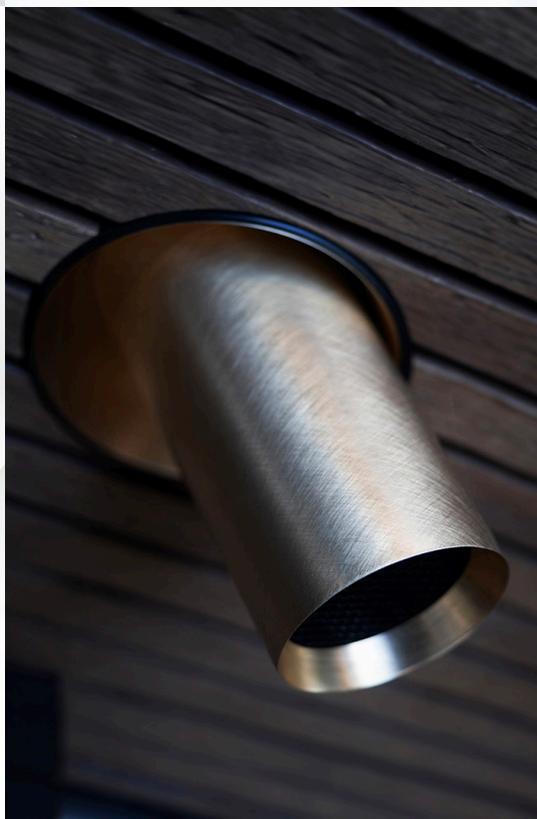

INSERT 10 ROUND
ADJUSTABLE

MAT 4C RCA

In 1976 Fabien Poutignat, Entrepreneur, received a medal for his model of "Bijou Electronics", which would evolve in electronic pin in 1977. It was the beginning of the adventure of the famous Pin's made in LOUPI, and a history of 40 years with the LED, in all its forms and all its applications: Embedded electronic systems for POS marketing in the 90s and then, in 2001, LED lighting design and production, through its dedicated branch LOUPI Lighting Systems. Today LOUPI and his teams are ready to support and amplify the planned growth of the LED, which is becoming the light source of the future: more sustainable, less energy, more powerful and more flexible, it even becomes a new Internet transport vector. Loupi, strengthened by 40 years of research, development and integration, taking an active part in these advanced techniques, and applied to the service of its customers.

ONEA

STORM MEDIUM SHORT 25

STORM MEDIUM LONG 25

STORM MEDIUM SUN

X-TENDABLE

oneA STORM SYSTEM® is developed with a desire to create the finest and most beautiful surfaces within architecture. oneA STORM SYSTEM® is a collection of products, distinguished by being as minimalistic as possible. The entire collection is carefully designed to flush the surface of any ceiling or wall, and will appear with an absolute minimum of tolerance and visibility.

PROMOTECH

EVO 3

EVO 10

EVO COBRA

EVO OMNIA

Promotech is a dynamic operating entity in ultra-luxury sector for 20 years, highly specialized in integrated lighting. Light merges with ambient, furniture and design enhancing shapes, volumes and style. High quality of the projects and of applications performed since years, as well as the quality of the international customers with which we compare and the high level of the details we are looking for, have provided us the right know how, very important to face new challenges.

TIMBERLAB

PUNTO

BOSCO

EYE

GUARDA

Timberlab's goal is to create a more beautiful, sustainable world with, and through sustainable outdoor lighting solutions. We create wood outdoor lighting solutions that reduce the impact on nature allowing us and the environment to live in synergy. With the vast range of products and design styles available our products can be used in large outdoor commercial projects or modern minimal residential applications.

STEPLIGHTS

Vanilla Lighting is a brand of in house architectural lighting solutions for residential and commercial clients. Founded in New York City by LGN, we recognized the need to simplify the light sourcing process. So, we curated a capsule collection of reliable, affordable and readily available lighting solutions. Our collection is hand selected by industry leaders so you can design an entire project from this line alone. Our approach allows us to keep costs lower for you by eliminating the mark ups associated with the traditional supply chain.

VIABIZZUNO

CANDELA DIVALS

N55 SOSPENSIONE

ROYAL INCASSO

C2 ANELLI

The project is a promise, a suggestion of quality and value, it is the way to fix the disorder of the world. Viabizzuno works, designs, produces, researches and innovates, trains its staff. For years it has been creating its own design philosophy to assert itself day by day not only like an industrial reality; it aims also to create an ethic design process.. The strength of Viabizzuno rely on working toward a customized design, finding solutions that didn't exist before, integrating light with architecture and so creating a recognizable image all over the world thanks to its formal and thinking integrity at the same time.
